

TEACHERS MAKE MOVE IN FIGHT FOR EQUAL PAY

Descend on Albany Unexpectedly and Gain Strategic Advantage Over Opponents.

TO WORK ON HOLIDAY.

Are Hopeful of Success and Think New Measure Meets Objections to Old.

Special from a Staff Correspondent of The Evening World.

ALBANY, Feb. 12.—When the four-ten marched into the corridor of the Ten Eyck Hotel last night, carrying handbags and fluff with feather and fur boas the statesmen looking about in the easy chairs sat up and took notice, as well they might, for fourteen first looking women never descended on the State capital. In the lobby of the Ten Eyck he met President Judge Cullen of the Court of Appeals.

"How are you getting along, Milburn?" asked the Judge.

"Fine," replied Mr. Milburn, "but pretty busy. With the Government pursuing every man with a two-dollar bill on the right side of the ledger, there's no excuse for a lawyer being idle."

"And earning part of the \$2?" laughingly asked the Judge.

"No," retorted Mr. Milburn, "that goes to the Government in paying court costs. The Government's got the best of it all the way through."

Here's a Tip to the New Reading Clerk in the Assembly.

There's a new guessing game popular with members of the Assembly. It is trying to figure out what the new Reading Clerk, Ross by name, is saying when he calls the title of a bill. He may improve later on, but until he

warns up and finds his voice the Assemblymen are undecided whether he is reading a phonetic hand under his breath, or testing the acoustics of the chamber with a new style of State whisper.

Many well-dressed women expressing themselves as eager to adopt a girl child called at the Mount Sinai Hospital again to-day to see Rosie Cohen, the 4-pound 9-ounce infant who has been in an incubator there for the last three weeks.

Still other women wrote asking about the child, and there were a few telephone calls. Wee Rosie continued to be the most important personage in the infant ward and seemed to be gaining in health and weight.

When she was brought to the institution by her mother, a poor woman from the east side, she weighed only two pounds and two ounces. She looked like a hopeless case, but from her first introduction to the incubator she thrived marvelously. Now the hospital staff feel that she does the institution so much credit that earnest efforts are being made to secure her a good home.

The bill which the women want passed this year is a modification of the measure which the Governor vetoed last session. It directs the Board of Estimate and Education to raise the pay of women to the same amounts as that paid to men for the same class of work. The women have very good reason to believe the Board of Education will not interpose so strenuous an objection as it did last year. There will be a hearing on the bill next week, at which time the women will come back to labor with the statesmen. Their present visit is of missionary character.

Why Chanler Had to Break Engagement for New York Dinner.

Some of our really great men are very careless about their private secretaries, and cause the latter no end of trouble by not consulting them regarding engagements. Lieut.-Gov. Chanler, who is big, amiable and obliging, is one of them. He has for his secretary the Hon. Barry Murphy, who is a Democratic boss of Queens County, which is hopelessly Republican.

Murphy, in addition to his work as secretary, is nursing the Chanler boom for President, though that tender plan is not going very well in these frosty days. Among his duties is that of seeing that the Lieutenant-Governor goes to the right sort of dinners. Hence this complication.

The Lieutenant-Governor, it seems, was recently invited to a big dinner in New York. He accepted, but thoughtlessly neglected to advise the Hon. Barry Murphy. The latter had accepted an invitation for a dinner of chocolate-makers in Rochester the same night, so the Lieutenant-Governor had to withdraw his acceptance of the New York dinner. Murphy was explaining the reason to a man who had invited the Lieutenant-Governor to the New York affair.

"I was sorry to have to throw you fellows down," he said, regretfully, "but what could I do? The Governor didn't know I had accepted another invitation for him the same night. I didn't think it necessary to tell him, because he always leaves those things to me. But I had to inform him before the chocolate manufacturers. Why I used to do business with them before I got into politics, and it would never have come for me to fall to make good to them."

The Lieutenant-Governor went to the chocolate dinner.

Christie Sullivan Says New Yorkers Bet Because They Want To.

There will be one vote against the anti-race track bill in the Senate if there is no other. It will be cast by Senator Christie Sullivan, the most attentive lawmaker in Sullivan clan ever sent to the Legislature, and also the most popular as an owner of horses, some of which he admits are not as fast as he would like them. Senator Christie is deeply interested in the game. He was discussing the Race Track bill with an up-State Senator who admitted he would like to vote against the bill "if it wasn't for the church people," but who urged the evils of horse-racing.

"Say," exclaimed Senator Christie, in disgust, "tell anybody ever drank you to a race track, dip into your pockets and make you bet?"

"No," replied the country statesman, with a puzzled expression. "Why?"

"Oh, I thought, perhaps, that when you were trying to find your way to a church during one of your visits to New York City, some bold, bad bookmaker kidnapped you and made you bet your money on a horse. I've seen you at a race track and didn't know but you had been knocked down and dragged in."

"In New York, where we want racing, we go to the track to bet, but we don't want to and don't need a Governor to tell us whether we should have a right

to do so or not. You countrymen don't appear to have confidence in your own judgment. You make us tired."

Government Gets Cash Either Way, Mourns Standard Oil Attorney.

John G. Milburn, the lawyer, at whose Buffalo home President McKinley died, was in Albany yesterday defending the suit to put the Standard Oil Company out of business. In the lobby of the Ten Eyck he met President Judge Cullen of the Court of Appeals.

"How are you getting along, Milburn?" asked the Judge.

"Fine," replied Mr. Milburn, "but pretty busy. With the Government pursuing every man with a two-dollar bill on the right side of the ledger, there's no excuse for a lawyer being idle."

15 AMERICANS ARE BLOWN UP AT A SONORA MINE

Mexicans Plan to Kill All Northerners Employed There With Dynamite.

TUCSON, Ariz., Feb. 12.—An attempt to kill every American at the Santa Rosa mine, in Sonora, twenty miles south of Douglas, was made on Saturday last, when Mexican employees placed sticks of dynamite under a boarding-house, the company store and the foreman's and superintendent's residences.

The fuses attached to the dynamite were timed for the explosions to follow each other in quick succession. The hour selected was during the evening meal, while all the American miners were in the boarding-house and the foreman and superintendent in their respective residences.

The first explosion was at the boarding-house, which was demolished. Fifteen men were blown through the roof, sustaining broken legs and arms, but there were no fatalities. The store was completely demolished.

Thomas Fagin, the foreman, and his wife were in their home, but the dynamite failed to ignite. The superintendent's office was demolished, but he was out of the building and escaped.

Gov. Torres has been notified and Rules under Commander Kosterlitzky are already on the scene. Eighteen Mexicans are under arrest at the mine. An attempt to destroy the Americans is believed to be the work of sympathizers with the revolutionists at present under arrest at Los Angeles, who believe the prisoners are being persecuted by Americans. There had been no trouble at the mine previously and no other cause is conceivable.

MUST KEEP "L" CARS WARM.

No More Frost on the Straps, Interborough Is Warned.

Murrah! The members of the Public Service Commission have got "cold feet" while riding in the "L" cars probably. Straphangers will not have to shiver much longer. The commission yesterday ordered the Interborough Rapid Transit Company to show cause why their cars should not show an established temperature of 60 degrees Fahrenheit during any winter.

The temperature is to be taken in the center of the cars. But at stations, with both doors open.

The commission's order does not state.

FOUGHT MOB OF LYNCHERS TILL HE WAS KILLED

Slayer Wounds Ten Who Wanted to Hang Him and Four Will Die.

VALDOSTA, Ga., Feb. 12.—Attacked by a mob of lynchers just across the Florida line yesterday, Jack Long, a white man, fought his assailants desperately, wounding ten of them, and forcing the others to kill him in the fight.

Long was accused of killing James Sapp, a wealthy citizen. A son of Sapp had killed a brother of Long and escaped.

Long saw the father of the slayer and shot him to death. Long was arrested and fifty men visited the prison and took him out to hang him. A spectator says Long fought the mob to a standstill in the prison, but was knocked down with a club as he ran out of the door. Then another fight ensued in which the combined strength of the men was required to subdue the prisoner.

A start to a place four hundred yards distant was made, but Long fought every inch of the way.

He was beaten to death before he finally was hanged. Four members of the mob were wounded so badly they will die.

LOYAL L. SMITH DIES IN ATLANTIC CITY

Well Known in Wall Street and Realty Circles Here, Where He Made \$500,000.

Friends in this city of Loyal L. Smith, who was credited with having made \$500,000 in real estate and in Wall Street, learned to-day of his death last even-

ing at Atlantic City. He was fifty-one years old and a bachelor.

Mr. Smith came to New York from Chicago ten years ago with \$200,000 he had acquired in speculation in the Windy City. He was classed as one of the "Chicago crowd," with John W. Gates, Isaac Elwood, John A. Drake and others.

Gates and Elwood let him in on the formation of the American Steel and Wire Company, and he was active in the deals which led to the absorption of this concern by the United States Steel Corporation, and the great bull movement which followed.

He later dealt much in Bronx and Manhattan real estate, and was known as a coffee "bull" and a heavy operator in cotton. He was born at Plattsburg, N. Y.
